COMPUTER-ASSISTED TRAINING AND PLATFORMS TO
UPSKILL LSP TEACHER

What is it ?

CATAPULT:

Upskilling teachers of Languages for Specific Purposes (LSPs) in Europe

CATAPULT is a three-year project co-funded by the ERASMUS+ programme of the European Union. It aims to offer **training** and tools to **language teachers teaching Languages for Specific Purposes (LSPs) in adult and higher education**, and to therefore make sure they are equipped with the necessary professional skills to train LSP learners in the digital era.

This objective will be reached through a **collaborative European project** undertaken by Higher Education Institutions, an international language association involved in the promotion of quality assurance in language learning and teaching, and independent partners in **6 different countries**, which strive to contribute to the improvement of the quality of the teaching and learning of Languages for Specific Purposes in Europe.

The consortium's collaborative work will lead to the provision of specific training and tools for the professional development of LSP teachers with particular focus on improved in-service training through and in the use of technology-enhanced environments.

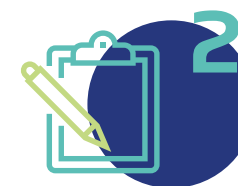

The CATAPULT Project

Computer Assisted Training And Platforms to Upskill LSP Teachers

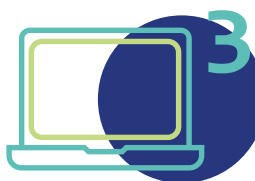

A Situational Survey

to study LSP teacher job market in higher and adult education and to identify skills gap

A Common Competence Framework

to serve as the basis for a specific LSP teacher training programme

A MOOC

to upskill language teachers involved in LSP teaching from a dual perspective : LSP didactics and digital technology integration

A Community of Practice Platform

to offer trained LSP teachers an online environment to advertise their expertise and find work (face-to-face sessions and online teaching)

An Accreditation Procedure

to guarantee the highest quality of the training offered (MOOC) and to offer certification to trained LSP teachers

« An ambitious high-quality project at the intersection of the Adult Education and VET sectors. »
